

Safety Data Sheet

| SDS Number: SDS-000080 | Page Number: Page 1 of 13 |
|----------------------------------|------------------------------|
| Effective Date: July 07, 2023 | Version number: 1.0 |

Section 1. Identification

| GHS product identifier | : | Methylene Blue Injection, USP |
|---------------------------------|--|---|
| Other means of identification | : | Not available. |
| Product type | : | Liquid. |
| | | |
| Relevant identified uses of the | <u>) </u> | substance or mixture and uses advised against |

| | to outsolarioo of mixture and dood daffood againet |
|--|--|
| Product use | : Pharmaceuticals. (For intended use only.) Observe technical data sheet/instructions for use. Specific Treatments: methemoglobinemia. |
| Area of application | : Professional applications. |
| Supplier's details | : Meitheal Pharmaceuticals, Inc. 8700 W. Bryn Mawr, Suite 600S Chicago, IL 60631 Telephone: 224-443-4617 |
| | www.meithealpharma.com |
| e-mail address of person responsible for this SDS | : info@meithealpharma.com |
| Emergency telephone number (with hours of operation) | : 844-824-8426 (Monday - Friday, 08:00 - 18:00 CST) |

Section 2. Hazards identification

| OSHA/HCS status | : While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees and other users of this product. |
|--|---|
| Classification of the substance or mixture | : Not classified. |
| GHS label elements | |
| Signal word | : No signal word. |
| Hazard statements | : No known significant effects or critical hazards. |
| Precautionary statements | |
| Prevention | : Not applicable. |
| Response | : Not applicable. |
| Storage | : Not applicable. |
| Disposal | : Not applicable. |
| | |

Section 2. Hazards identification

Hazards not otherwise classified

: None known.

Section 3. Composition/information on ingredients

| Substance/mixture | : Mixture |
|----------------------------------|------------------|
| Other means of identification | : Not available. |

| Ingredient name | Other names | % | CAS number |
|--|--------------------|-------------------|-------------------------------------|
| water Phenothiazin-5-ium, 3,7-bis(dimethylamino)-, chloride, hydrate (1:1:3) nitrogen | - - Nitrogen | ≥90 <1 ≤0.3 | 7732-18-5 7220-79-3 7727-37-9 |

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified and hence require reporting in this section.

Section 4. First aid measures

Most important symptoms/effects, acute and delayed

| Description of necessary firs | <u>t aid measures</u> |
|-------------------------------|--|
| Eye contact | : Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs. |
| Inhalation | : Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. |
| Skin contact | : Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur. |
| Ingestion | : Wash out mouth with water. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur. |

| most important symptoms/enco | to, doute and delayed | |
|--------------------------------|---|--|
| Potential acute health effects | | |
| Eye contact : | No known significant effects or critical hazards. | |
| Inhalation : | No known significant effects or critical hazards. | |
| Skin contact : | No known significant effects or critical hazards. | |
| Ingestion : | No known significant effects or critical hazards. | |
| Over-exposure signs/symptoms | | |
| Eye contact : | No specific data. | |
| Inhalation : | No specific data. | |
| Skin contact : | No specific data. | |

Safety Data Sheet

Safety Data Sheet

| SDS Number: SDS-000080 | Page Number: Page 3 of 13 |
|----------------------------------|------------------------------|
| Effective Date: July 07, 2023 | Version number: 1.0 |

Section 4. First aid measures

| Ingestion |
|-----------|
|-----------|

: No specific data.

| Indication of immediate medical attention and special treatment needed, if necessary | | | |
|--|---|--|--|
| Notes to physician | Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled. | | |
| Specific treatments | : No specific treatment. | | |
| Protection of first-aiders | : No action shall be taken involving any personal risk or without suitable training. | | |

See toxicological information (Section 11)

Section 5. Fire-fighting measures

| Extinguishing media | |
|--|---|
| Suitable extinguishing media | : Use an extinguishing agent suitable for the surrounding fire. |
| Unsuitable extinguishing media | : Do not use water jet. |
| Specific hazards arising from the chemical | : In a fire or if heated, a pressure increase will occur and the container may burst. |
| Hazardous thermal decomposition products | : No specific data. |
| Special protective actions for fire-fighters | : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. |
| Special protective equipment for fire-fighters | : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. |

Section 6. Accidental release measures

| Personal precautions, protect | ive | equipment and emergency procedures |
|--------------------------------|-----|---|
| For non-emergency personnel | : | No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment. |
| For emergency responders | : | If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel". |
| Environmental precautions | : | Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). |

| SDS Title: | SDS Number: | Page Number: |
|---|-----------------|-----------------|
| Methylene Blue Injection, USP Safety Data Sheet | SDS-000080 | Page 4 of 13 |
| Function: | Effective Date: | Version number: |
| Regulatory Affairs | July 07, 2023 | 1.0 |

Section 6. Accidental release measures

| Methods and material | s for containment and cleaning up |
|----------------------|--|
| Small spill | : Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor. |
| Large spill | : Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal. |

Section 7. Handling and storage

Precautions for safe handling

| Frecautions for sale nationing | | |
|--|---|--|
| Protective measures | Put on appropriate personal protective equipment (see Section 8). | |
| Advice on general occupational hygiene | Eating, drinking and smoking should be prohibited in areas where this mate stored and processed. Workers should wash hands and face before eating smoking. Remove contaminated clothing and protective equipment before eating areas. See also Section 8 for additional information on hygiene mea | g, drinking and entering |
| Conditions for safe storage, including any incompatibilities | Store in accordance with local regulations. Store in original container protect lirect sunlight in a dry, cool and well-ventilated area, away from incompatib see Section 10) and food and drink. Keep container tightly closed and sea or use. Containers that have been opened must be carefully resealed and o prevent leakage. Do not store in unlabeled containers. Use appropriate o avoid environmental contamination. See Section 10 for incompatible ma nandling or use. | le materials led until ready l kept upright containment |

Section 8. Exposure controls/personal protection

Control parameters

Occupational exposure limits

| Ingredient name | Exposure limits |
|--|--|
| water | None. |
| Phenothiazin-5-ium, 3,7-bis(dimethylamino)-, chloride, hydrate (1:1:3) | None. |
| nitrogen | ACGIH TLV (United States, 1/2022). Oxygen Depletion [Asphyxiant]. |

Appropriate engineering controls

: Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

Safety Data Sheet

| | | Page Number: Page 5 of 13 |
|--------------------|-----------------|------------------------------|
| Function: | Effective Date: | Version number: |
| Regulatory Affairs | July 07, 2023 | 1.0 |

Section 8. Exposure controls/personal protection

| Environmental exposure controls | : Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels. |
|---------------------------------|---|
| Individual protection measure | <u>S</u> |
| Hygiene measures | : Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location. |
| Eye/face protection | : Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields. |
| Skin protection | |
| Hand protection | : Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. |
| Body protection | : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. |
| Other skin protection | : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. |
| Respiratory protection | : Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use. |

Section 9. Physical and chemical properties

The conditions of measurement of all properties are at standard temperature and pressure unless otherwise indicated.

| Appearance | | |
|---|---|------------------|
| Physical state | 1 | Liquid. [Clear.] |
| Color | 1 | Blue. [Dark] |
| Odor | 1 | Not available. |
| Odor threshold | : | Not available. |
| рН | : | 3 to 4.5 |
| Melting point | : | Not available. |
| Boiling point, initial boiling point, and boiling range | : | Not available. |
| Flash point | : | Not available. |

| Soil/water partition coefficient (Koc) | : Not available. |

Other adverse effects : No known significant effects or critical hazards.

Section 13. Disposal considerations

| Disposal methods | : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. |

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks. Although HMIS® ratings and the associated label are not required on SDSs or products leaving a facility under 29 CFR 1910.1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS® is a registered trademark and service mark of the American Coatings Association, Inc.

The customer is responsible for determining the PPE code for this material. For more information on HMIS® Personal Protective Equipment (PPE) codes, consult the HMIS® Implementation Manual.
